FLAME RESISTANT, COMPLIANT WITH EN 45545

RUBBER PROFILES

UNIVERGOM
metal rubber industry

UNIVERGOM
metal rubber industry

Our company specialises in equipment for the railway industry: we offer a wide range of profiles for doors and windows, as well as complete belts with junction. Moreover, all profiles are developed in-house, from the design phase to the production.
Among our technical items customers can find drawgear springs, buffer elements and rubber tubes for gangways UIC 561.

What we do:
- Extruded profiles
- Hot sealing system
- Moulding by compression or transfer with tables up to 2500x2500 mm
- Designing and creation of matrix
- Study of new compounds

Univergom started to operate in the field of rubber articles production in 1978, collaborating mostly with a company in the automotive sector. Shortly after its foundation, thanks to the strong spirit of collaboration among the business partners and to the knowledge acquired in the metal-rubber sector, the company started considering product diversification in order to reach new and important objectives and markets. Today, thanks to experience honed over 40 years of activity as well as to our first class technical performance, competitiveness and capacity for innovation, we are able to provide customers all over the world with quick and reliable solutions.

Certifications:
- UNI EN 45545-2:2015
- ISO 9001:2015
